Premier League Home/Away Edge Analysis

Historical Outcome Distribution & Betting Edge

HOME WIN RATE	AWAY WIN RATE
33.3%	**26.7%**

DRAW RATE	GAMES ANALYZED
40.0%	**15**

Outcome Distribution

Outcome	Count	Actual %	Market Expectation	Edge
Home Win	5	33.3%	~40-45%	-9.2%
Draw	6	40.0%	~25-30%	**+12.5%**
Away Win	4	26.7%	~28-32%	-3.3%

Betting Implications

Strategy	Historical Edge	Recommendation
Blind Home Betting	-9.2% vs expectation	Negative expected value
Draw Specialization	+12.5% vs expectation	Consider draw markets
Away Underdog	-3.3% vs expectation	Standard pricing

Edge Analysis:

- Home advantage: 33.3% actual vs ~42% market expectation
- Net edge: -8.7% when backing home teams
- Sample size: 15 games (statistical significance pending)

Methodology: Historical outcome analysis from recent completed matches. Market expectations based on typical Premier League/NFL distributions. Edge = Actual % - Expected %. Positive edge indicates potential value. Statistical significance typically requires 50+ games.
